Subject: European REACH Regulation Compliance

To Whom it May Concern:

This letter establishes the opinion of Control Products, Inc. regarding the status, under the current European Union ("EU") Regulations on Registration, Evaluation, Authorization, and Restriction of Chemical Substances ("REACH"), of the product Control Products, Inc. supplies to your organization, with the understanding that your organization may subsequently send this product to the EU. We have no hesitation in concluding that, under these circumstances, the products we provide to your organization meet the criteria for an "Article" under REACH.

Control Products, Inc. is not required by REACH to register or pre-register the substances used in "products" that are sold outside of the EU. In addition, Articles are exempt from the REACH requirements if (a) the Article does not contain a substance of very high concern or candidate substance in an amount exceeding 0.1% weight by weight, and (b) if substances present in the Article in excess of 1 ton per year per importer are not expected nor intended to be released. Neither of these conditions apply to Control Products, Inc. products. Therefore REACH does not require Control Products, Inc. to register, pre-register, notify, or communicate the substances contained within the Articles that are supplied to your company.

We trust that you will find this letter fully responsive to your request. Should you have any further questions, or if we may be of assistance in any other way, please, do not hesitate to contact us.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mac Stuhler', written over a light blue horizontal line.

Mac Stuhler
Vice President
