

K1006-18 Internal Lever Switch

- **Cover Material: Neoprene**
- **“V” back for pipe surface mounting**
- **Normally-open**
- **Large actuating area**

Internal lever switches are designed for manual actuation applications, where a larger actuator area with more travel is required. Encased in neoprene rubber, these basic switches feature a “V” shape back for pipe mounting and are available in 2 wire and 2 conductor cable. Special terminations and coil cords are also available.

Typical Applications

- Emergency Stop Switch
- Gun Firing Control
- Horn Switch
- Laser Sighting Switch
- Momentary Torch Switch
- Pendant Switch
- Remote Horn Signal Switch
- Weapon Light Switch

Specifications

Electrical Rating	28 VDC 15A resistive, 7.5A inductive 120VAC 5 A resistive, 3A inductive
Electrical Configuration	SPST, NO
Endurance	100,000 cycles
Operating Temperature	-65 to 165°F / -53.9 to 73.9°C
Cover Material	Neoprene
Leads	16 AWG Neoprene insulated wire, 18" / 457.2mm length
